

New Song Mission Fact Sheet

--Rebuilding children's lives, through the love of Christ Jesus--

- **New Song Mission, a 501 (c)(3) nonprofit Christian ministry, is a children's home campus unlike any other in the State of Indiana on 100 beautiful acres in the hills of Brown County.**
- **The vision of New Song Mission is to rebuild the lives of orphaned, fatherless, and impoverished children so that they will feel loved and become equipped to fulfill God's wonderful purpose for their lives.**
- **New Song will holistically care for children in a safe and nurturing campus community environment, helping the kids to live healthy lives—physically, emotionally, intellectually, and spiritually.**
- **New Song will receive children whose parents are unable to care for them due to the parents' death, abandonment, incarceration, drug or alcohol addictions, psychological problems, or other debilitating issues.**
- **New Song will receive children directly from their caregivers, rather than receive placements from the county or state, offering them a loving home until they transition into college, a trade school, or a career.**
- **New Song will seek to partner with governmental and private agencies as a referral option in situations where the ministry can be helpful.**
- **New Song will remain privately funded, relying on the generosity of supporters who care deeply about children.**
- **New Song will offer kids an exceptional education with an individualized curriculum, low student-to-teacher ratios, hands-on learning activities, and opportunities to explore the arts, music, and nature.**
- **Upon graduation, New Song students will be linked with caring families in their local communities who will provide them with the ongoing love and support they will need throughout their early adult years.**
