PARENT TESTIMONIAL

[Our daughter did] so well in school while she has been at New Song. We think she has received excellent care while she has been there! We have seen her grow in her faith which is amazing. I love how organized New Song is! They have kept us informed on every aspect of [our daughter's] life while she was there, as far as her medical care, dental care, her schooling, and any activities she has done with others. I think she has had the best care while she has been there!

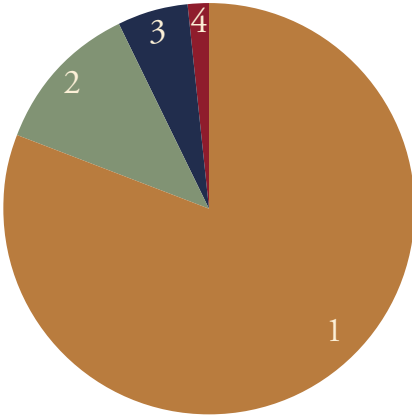

”

New Song’s goal for the at-risk kids in our care is personal, holistic growth and transformation. We seek to help them toward this goal through Christian discipleship, academic instruction, recreational activities, experiential learning, and relational mentoring. We care for our students with love, compassion, and patience, receiving our strength, wisdom, joy, and peace from the Lord as we serve Him with great gratitude and humility.

FOUNDERS AND DIRECTORS

Brown County and at-risk kids. From the very beginning of the journey, Lisa and I felt it would be a great combination. And when the Lord led us to the 100 acres of undeveloped woods and ravines in a remote part of the county, He gave us a great hope in our hearts that He would provide for the vision. And He certainly has! Having cared for several incredible teens on campus over the past year—being able to watch them learn, grow, and mature—we are exceedingly grateful. Thank you for all of your love and generosity, which have been such a wonderful blessing over the years, including these past 12 months. We will continue to trust God for the ministry's future. To Christ Jesus be all glory, all honor, and all praise!
